

# Exchequer Tools

## Tools for Exchequer reporting & integration

**Exchequer Pivot Report tools** have been built with data visibility in mind.

**Fast, easy to use** and intuitive tools make reporting a breeze.

**ExReport** is the client query/reporting engine that connects to the data synchronised by ExSync.

The pivot edition of ExReport has all the same features of the standard edition but is further enhanced with the **'Pivot Table'** and **'Dynamic Charting'** modules.

### See your data as never before:

ExReport's intuitive pivot table and dynamic charts virtually eliminates the need to pre-configure reports and charts. Simply fetch the ALL the data you think you may need and the tables and charts virtually build themselves with a few clicks, drags, and drops.

**Report Consolidation:** Literally hundreds of spread sheets, reports, and documents can be replaced with a single report.

**Seamless Exports:** Of Data, Pivots, and Graphs to Excel, CSV & PDF.

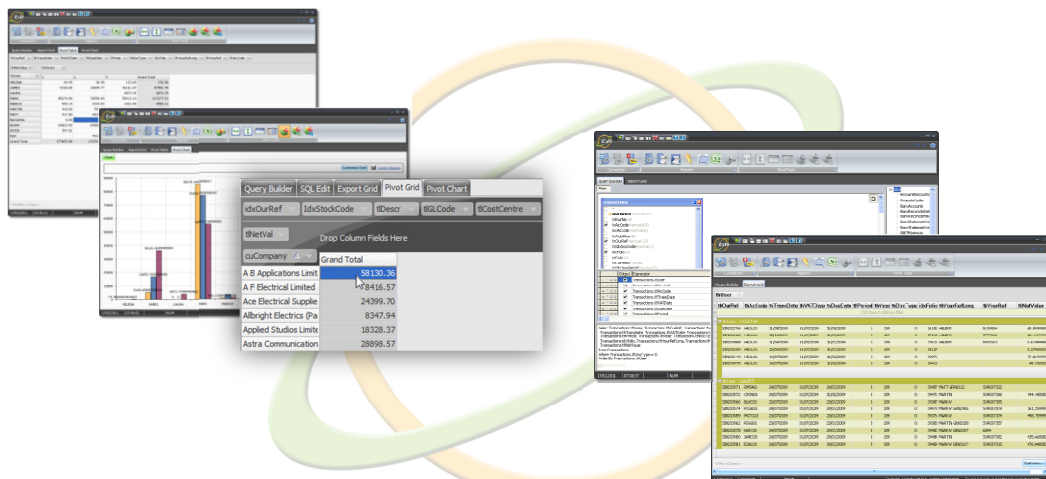

**"One-Click" Data Refreshes:** After you have defined your data sources and structured your reports, keep your data current with a simple click of a button. All your formulae, reports, and charts are instantly updated.

### Drag and Drop Report Design:

With ExReport's intuitive pivot table, reports are dynamically and instantly configured with automatic rollups and drop-down filters. Anybody can slice and dice the data with almost no training.

**"One-Click" Dynamic Charts:** Charts are dynamically created using ExReport's intelligent chart construction with a simple click of the mouse. Watch your data come alive as your charts visually describe and follow the slices and rollups of your multi-dimensional data with logic and precision.

- No Exchequer license required.
- Visual Query Building
- No SQL Skill Required
- Access All Database Fields.
- Create views not possible in Exchequer
- Powerful Grid Sorting
- Instant Calculations
- Filtering
- Grouping
- Pivot Table View
- Integrated Charts
- Export to Excel or CSV
- PDF Visual Reports
- Custom Themes

Network Reports  
for either:

MS SQL Server  
Oracle MySQL

**Registered Address**  
Units 20-21 Somerford Business Park  
Wilverley Road  
Christchurch  
Dorset BH23 3RU  
Sales: 0845 5194 487  
Technical: 01933 429800
